My Work

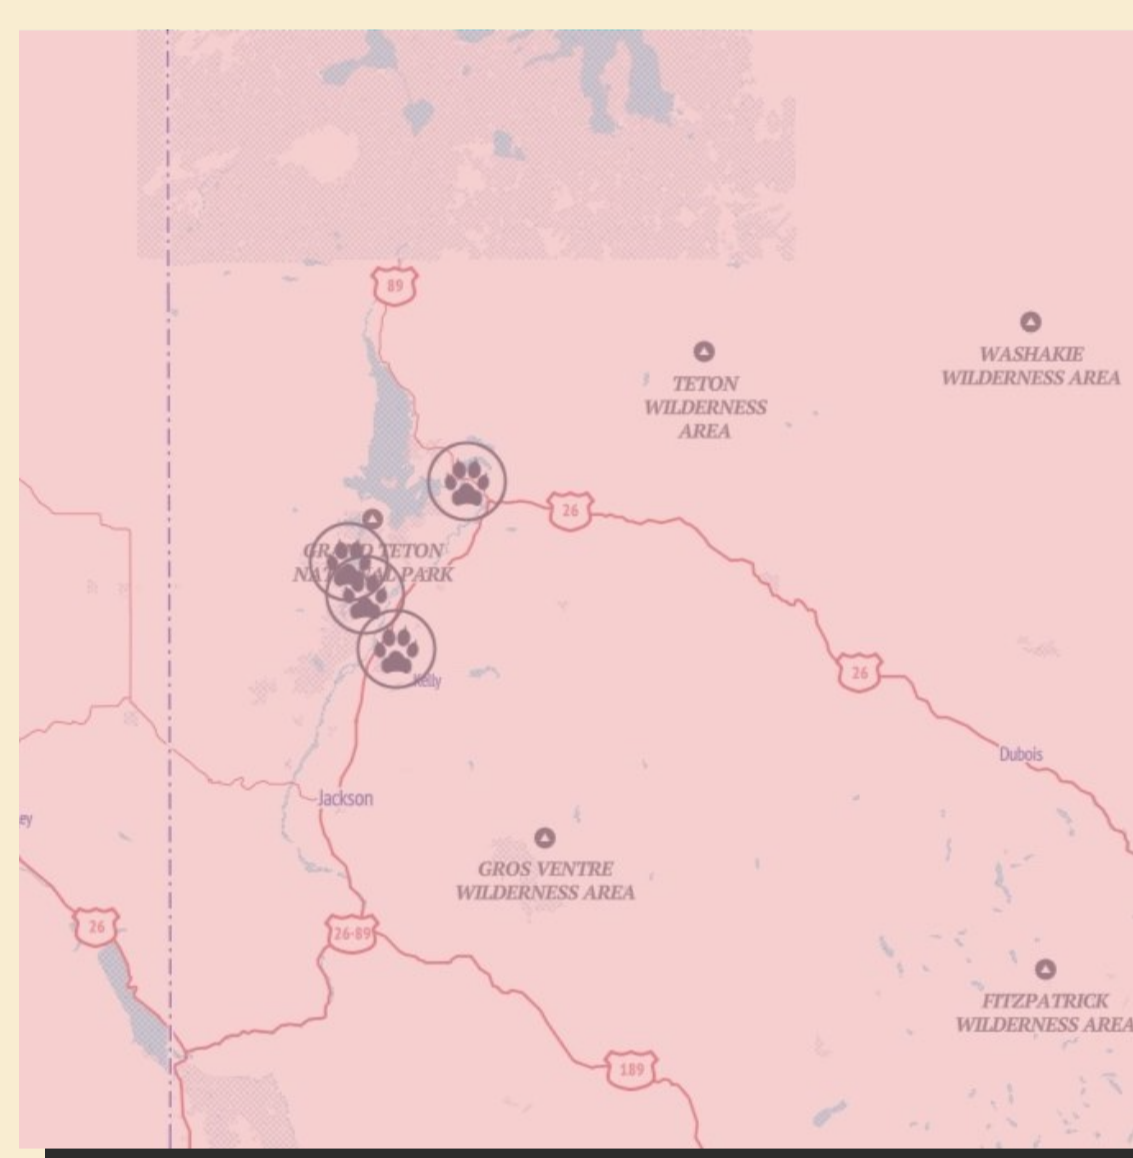

DATA ENRTY: Portal →

A reconstruction of Rob Swigart's 1986 narrative 'Portal', into a Virtual Reality Environment.

Pineapple Upside-down Cake →

A recipe website focusing on information hierarchy, paying attention to typography and visual appeal.

Jackson, WY (Mapbox) →

An interactive map referencing popular wildlife sightseeing locations in Jackson Hole Wyoming for tourist destinations.

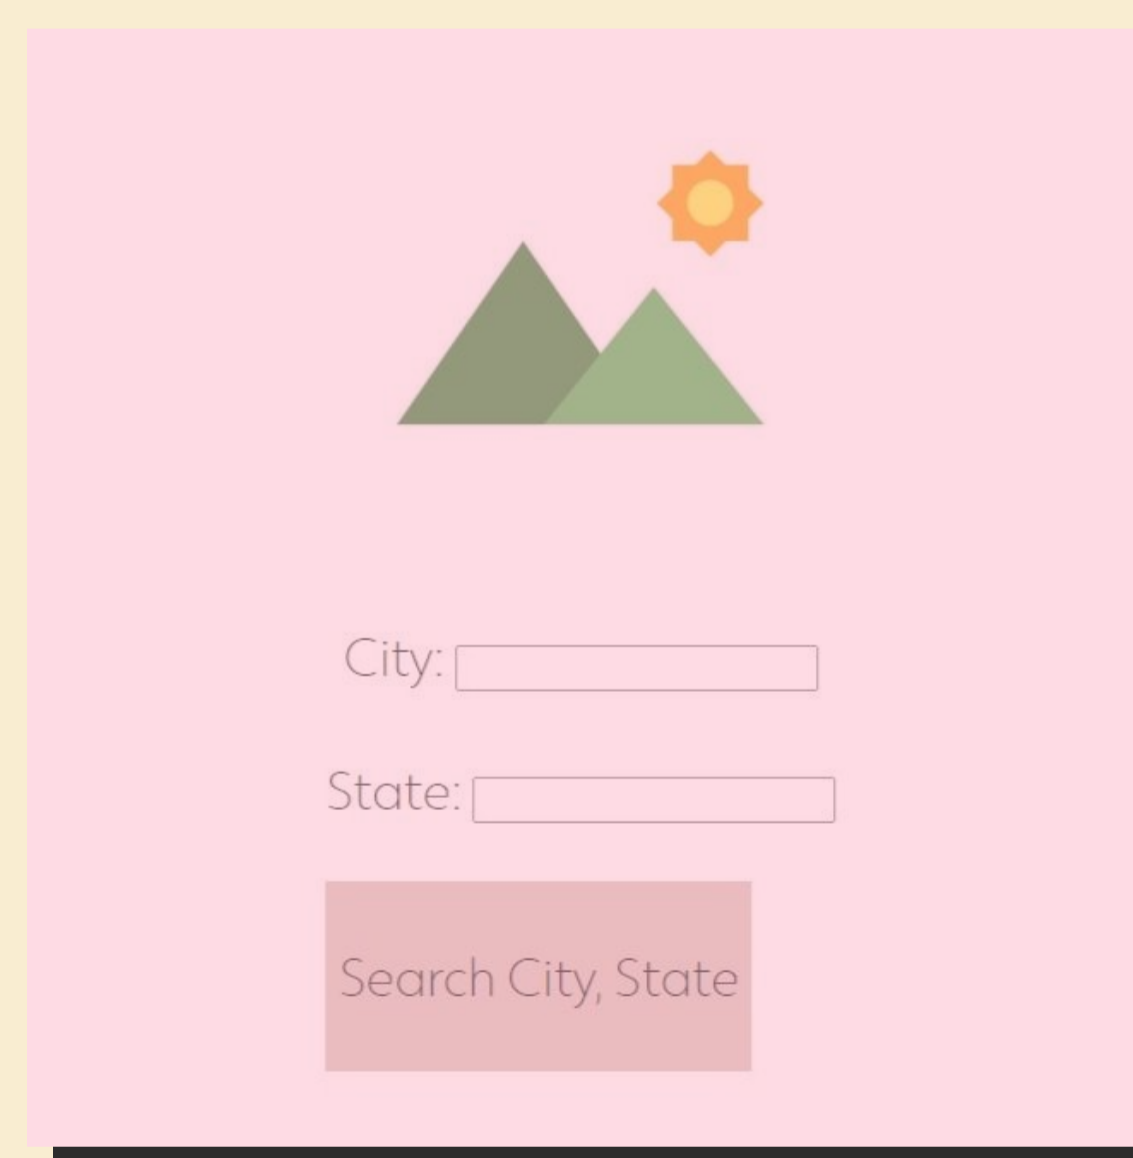

Halloween Poster →

Designing a promotional poster that pays attention to information hierarchy and proper typography.

Unicorn Dash →

An HTML Canvas game featuring an adorable unicorn character controlled by the user to avoid obstacles. Includes sound.

Weather API →

A weather API created as a tool to retrieve and access real-time forecast information from a weather service provider.
